Telstroms' BRI GSM Gateway by Telecom FM, enables businesses to save money by allowing them to make cheap mobile to mobile calls, through the GSM network, instead of expensive fixed t mobile calls. The GSM Gateway easily connects to the PBX just like a regular BRI ISDN line and it is compatible with all PBX systems with that support ISDN Basic Rate.

Benefits

- Quick and easy install
- Auto sensing setup
- No silent call periods
- Intelligent call routing
- Mobility Extension / GSM DECT
- Small investment, fast savings
- Provides fail over backup to PSTN
- Save on fixed calls to mobile fleet

CONNECTS TO ANY PHONE SYSTEM!

QUICK & EASY SETUP
